# Teacher's Seed, Bulb and Shrub Catalog

**Purpose of Catalogs** Is to give every pupil in your school seeds, bulbs and shrubs at prices within their means, so that they may obtain a knowledge of how to grow flowers and vegetables.

**Show the Catalog** Will you show the catalog printed in black to your pupils and ask how many of them would like to receive a copy? If you have other teachers in your school, ask them to do the same. Then fill in the enclosed post card to tell us how many copies of the pupil's catalog and the teacher's can be distributed. We will send the full supply promptly.

**When You Receive the Catalogs** Distribute them to the teachers and pupils who ask for them. (One to a family is generally about right.) Instruct the pupils to take them home so the parents can help select the seeds to be planted. Tell them to make up their orders on the order blank in the middle of the catalog, which can be removed easily, and that all pupils should bring their orders and the money to pay for the seeds to you on a certain day. This will complete the ordering at one time.

**Send All Orders to Us** Wrap all the orders together and send them, together with a Money Order or your check, to **The Children's Flower Mission, 5700 Detroit Ave., Cleveland, Ohio.** (Never send cash or stamps unless you register the envelope.) If the package of orders weighs over one pound, send it by **Express Collect.** If less than one pound, send by **First-Class Mail.** The writing on the orders makes these orders **First-Class Mail Matter, not Parcel Post.**

**Absolutely No Expense to You** We prepay all carrying charges on catalogs, seeds, bulbs and shrubs, so the teachers are put to no personal expense. If you pay for the goods with a money order, you may select free seeds to cover the cost of the money order **Fee.**

**Free Seeds for Your School** If your school has no fund for purchasing seeds to be used about the school building, you can select free seeds on the order blank in **this** catalog to the amount of 10% of the total orders of your pupils. That is, if your pupils should order \$10.00 worth of goods, you may select seeds worth \$1.00, etc. If the seeds are not needed for this, you can use the free seeds for any pupils who might not be able to buy seeds or for use in making germination tests in blotters or in sand boxes in the school room. This is valuable to you.

**A Real Community Service** Your entire community will benefit if you will give this opportunity to your pupils. Homes and school grounds will be improved and parents will thank you for having interested their children in so worth-while a project. Then the fall flower and vegetable shows and the county fairs will have entries from **your** room. This makes the children happy, too.

**How and When Orders Are Filled** Each child's order will be pasted to a large envelope and the seeds placed inside. Thus the original orders are returned so no copies of orders need be kept by you. Seed orders will be filled as soon as received. Bulb and shrub orders will be held here until planting time late in the spring. In both cases, all orders will be packed in one lot and shipped to **you** and you can easily distribute to the pupils.

**Our Guarantee** It is and always has been to our interest to have everyone satisfied. The result is the strong guarantee under the heading "Parents" on the following page. Fill in the post card and send for your catalogs today.

# New and Special Vegetable Seeds

THE FOLLOWING VARIETIES ARE OF SPECIAL VALUE AND ARE AS YET TOO EXPENSIVE TO INCLUDE IN THE PENNY-PACKET LIST. WE CONFIDENTLY RECOMMEND THEM.

Webber Wax

**55 New Webber Wax Bush Bean** We asked our Bean Grower to name the best Wax Bean. His reply was "Webber Wax." It is very vigorous, healthy and wonderfully productive. Will produce fifty per cent more than other varieties. Broad, flat, golden yellow, stringless pods. **Pkt. 15c.**

**56 Chinese Yard Long Pole Bean** An interesting novelty from China. Long, slim, round pods, 2 to 3 ft. long. A curiosity that always attracts attention. The French Yard Long has larger seed and is an excellent table bean. We include both varieties in each packet. Try them. **Pkt. 10c.**

## Two Best Cabbages from Denmark

**57 Copenhagen Market** The earliest of the large, solid, round head varieties. Rapidly gaining in popularity. Only a few days later than Wakefield. Heads weigh 8 to 10 lbs. **Pkt. 10c.**

**58 Danish Ballhead** For quality no other late cabbage equals it. A sure header. Very solid, heavy and fine grained. Always brings the highest market price. One of the best keepers. **Pkt. 10c.**

**59 Genuine Snowball Cauliflower** The most delicious of all the cabbage family. We believe this to be the very best variety in existence. We handle only the best Danish grown seed. Culture same as for cabbage. **Pkt. 15c.**

**You Can** find room for a little garden all your own. Enough seeds for a fine crop of vegetables and flowers cost very little. Have a garden this year.

**61 Early Mayflower Sweet Corn** Wouldn't you like to have Sweet Corn to use before any of your neighbors? You can if you plant Mayflower, the earliest of all white, true Sweet Corn. The ears are surprisingly large for an extra early variety, averaging about 7 inches long, and ten rows of tender, deliciously sweet kernels. Give it a trial, you will be pleased. **Pkt. 10c.**

**62 New Golden Giant Sweet Corn** A valuable new variety that is attracting much attention. A cross between Golden Bantam and Howling Mob. Large ears, 12 to 14 rows of grains. Medium early and of Golden Bantam quality. **Pkt. 10c.**

**63 Japanese Hulless Pop Corn** Here, boys, is the very best up-to-date pop corn. It is distinct from all other varieties. Of dwarf, sturdy growth, and a heavy yielder of short, thick ears, of excellent popping qualities. **Pkt. 8c.**

Copenhagen Market Cabbage

**64 Japanese Climbing Cucumber** A valuable acquisition. fence the same as a gourd vine. Think of gathering long, smooth cucumbers of excellent quality from your garden fence. A splendid variety. **Pkt. 10c.**

**65 Irish Queen Cucumber** This variety is distinct from others in that it is almost perfectly smooth, free from ridges or spines. The color is deep glossy green, so attractive for the home garden or market. Flesh crisp and solid, an excellent slicer. **Pkt. 10c.**

Grand Rapids Lettuce

**66 Extra Early Grand Rapids Lettuce** This is extensively grown in greenhouses for supplying the winter and early spring market, but it is not generally known that it is the best extra early garden variety. **Pkt. 10c.**

**67 New York Wonderful, or Los Angeles Lettuce** One of the largest varieties grown, forming immense heads during the summer months. Outer leaves dark green, but the heads blanch white. Crisp and tender. **Pkt. 10c.**

**68 Ponderosa, or "Beefsteak" Tomato** This is the largest, but also the heaviest Tomato grown. Color glowing purple-crimson. Considered by many the best table variety in existence, especially by those who prefer a tomato quite free from acid. Being very solid, with few seeds, it is very desirable for slicing. **Pkt. 10c.**

Japanese Hulless Pop Corn

# Teacher's Instructions

## TEACHER'S ORDER BLANK

*Purpose of This Literature* Is to provide high class, guaranteed Penny-Packet Seeds for school children to use in their studies or in their school or home gardens.

**Two Kinds of Order Blanks** This one, printed in red, is for the use of Teachers only. The one in black is for pupils. Each contains complete instructions.

**Your Part as Teacher** Will you show the Pupil's Order Blank (printed in black), to your pupils? Tell them that we will supply one like it for each pupil wishing to order seeds for either home or school gardens. (If other teachers in your school would like to join with you, give us the total number of teachers and pupils for the entire school instead of just for your own room.) Now fill in the enclosed post card and mail it to us so we can send the supply promptly.

**When You Receive the Order Blanks** Tell your boys and girls to take the order blanks home so that the parents may help in the selection of the seeds to be planted. Then have them bring their orders and the money to pay for them back to you on a certain day. You can then send all the orders from your room and a money order for the total amount the children have brought you, direct to The Children's Flower Mission, 5700 Detroit Ave., Cleveland, Ohio.

**When You Send the Orders to Us** Send all in one package. If the package weighs less than one pound, send it by FIRST-CLASS MAIL. (You cannot send anything with writing on by Parcel Post.) If the package weighs more than one pound, send it by EXPRESS COLLECT. If at all possible, send the money by POSTAL or EXPRESS MONEY ORDER as that is safest. If you cannot do so, send a check. Cash is too easily lost in the mails and stamps should not be used because we receive many more than we can use from people who do not know our wishes.

**Do Not Keep Copies of the Orders** We always return the original orders with the seeds, so it is not necessary for you to keep copies. These orders are each pasted to a large envelope in which we place all the packets for that particular order.

**Absolutely No Expense to You** We prepay all the carrying charges on the supply of order blanks as well as on all seeds ordered by the pupils. For the money order which you must purchase in sending in the money for the goods, you may select free seeds up to the cost of the money order fee.

**Our Guarantee** If, after careful planting, care and cultivation, any goods purchased from us do not prove satisfactory and you believe the failure due to the quality or condition of stock when received, we will adjust all claims by replacing, or if too late, by refunding to you the amount paid for such items. This amounts to a guarantee of absolute satisfaction or your money back.

Irish Gray Watermelon

Golden Hearts Muskmelon

**70 The Famous Honey Dew** Created a sensation when first introduced. Fruit quite large, 8 to 10 lbs., early round. Perfectly smooth skin, color creamy-white turning to light lemon-yellow when ripe. The crisp, green flesh is indescribably sweet. It is rightly named. **Pkt. 10c.**

**71 Watermelon, Irish Gray** Wouldn't you like to be in Master Robert Crockett's place enjoying a slice of delicious Irish Gray Watermelon? It is a distinct new variety. Skin solid gray in color, flesh bright red of finest quality. Try it this year, you will be pleased. **Pkt. 10c.**

**Many** who are now parents bought seeds for their own little gardens when they were boys and girls. Ask **your** father and mother if **they** did.

**73 Thomas Laxton Pea** Grows about 2 1/2 feet high. Very vigorous and productive. Pods large, long, with square ends. Green peas very large, fine colored and unsurpassed in quality. Will satisfy the most critical. **Large pkt. 10c.**

**74 Extra Early Spanish Peanuts** Say, boys, wouldn't you like to try your luck growing Peanuts? This variety can be successfully grown in the North if planted on sandy soil. Nuts are medium size very solid and sweet. **Pkt. 10c.**

**75 Japanese Radishes** A very interesting packet, containing the following interesting varieties from Japan: Bottle Radish, String Radish Mikado, Miyashige, Giant Shogoin and Sakurajima, growing to weigh 20 to 25 pounds. **Pkt. 150 seeds 10c.**

**76 Ideal Lawn Grass Seed**

We handle only one grade of Lawn Grass Seed, as pure and free from chaff or other foreign substances as it is possible to procure. It is a carefully blended mixture of the following varieties of hardy grasses best suited to growing a compact durable evergreen sod: Blue Grasses, Red Top, Fescues, Rye Grass and White Clover, a combination for a fine velvety lawn. **Package for mending bare spots 10c, 1 lb. 55c.**

**77 Shady Nook Mixture** A special mixture containing varieties that will succeed in partial shade, suitable for sowing under shade trees and in shady corners. **Large pkg. 15c, 1 lb. 60c.**

**78 Pure White Clover** It is often advisable to include a larger proportion of White Clover, especially in poor clay soil. Also for renovating old lawns, the Clover takes hold quickly. **1/4 lb. 35c, 1 lb. \$1.00, 3 lbs. \$2.85.**

**Vegetable Seeds in Quantity Packages**

For the convenience of those wishing to purchase seed in larger quantities than our standard penny packets we offer the most popular varieties in convenient sized quantity packets. For list of varieties and quantities see page 2 of Order Blank.

**Read This** Use Pen and Ink. Sign your name and address plainly. Enter quantities wanted and total prices in blanks for each variety. Carefully add values of all goods ordered on each page and enter all in opposite blanks. Send order for bulbs, roots, etc., with your seed order. Seeds will be sent at once, but bulbs will be held until weather will be safe for shipping.

**Bulbs and Shrubs** are different from seeds. Seeds are not injured by ordinary cold weather, so we send your seeds to you just as soon as your order arrives. But Bulbs and Shrubs are tender when exposed to severe weather, so we hold your bulb and shrub order here until as near planting time as possible.

**Dormant Not Dead** Every item on pages 3 and 4 will be dormant when you receive them. They lose their leaves and "sleep" over winter like the Maple and Elm trees do.

**Give Them Time** Remember, after planting, you must give everything time to get started to grow. If it should be a warm or "early" spring, things will show signs of life much sooner than if we have a wet or "late" spring. So please be patient with your garden, when it is making its start.

# Quality Dahlia Roots

Dahlia in your garden will attract favorable attention if you have the right kinds. We have been growing more and more dahlias each summer for the past several years and this gives us the largest and nicest stock of Dahlia Roots we ever had.

While we have never talked much about the money school children can earn from their gardening efforts, still it is worth mentioning here that you can probably get a bigger price from your neighbors and friends for the Dahlias you offer to sell them than from anything else you grow in your garden.

If you wish a really choice assortment of Dahlia Roots at a nominal cost, three combinations are offered you here. They will give you a wide range of types and colors.

**1135 Combination A** Contains one root each of peony, cactus, decorative, show, pompon, collarette types, not labeled. 6 postpaid for only 75c.

**1136 Combination B** The same as "A" except that there are two distinct colors of each of the six types, not labeled. 12 postpaid for \$1.40.

**1137 Combination C** A general mixture of several colors and many types. You will surely be pleased with these. 12 postpaid for only \$1.00.

**Have You Any House Plants?** House plants like ferns and begonias need food and about all they get in the average home is water, which is not enough. "Watch-em-Grow" Plant Food on page 7.

**HIGH GRADE PENNY-PACKET SEEDS  
FOR SCHOOL & HOME GARDENS**

SCHOOL GARDEN DEPT. OF  
THE TEMPLIN-BRADLEY CO.

5700 DETROIT AVE  
Cleveland, Ohio, U.S.A.

Will You Help Your Pupils  
To Have A Garden This Year?:-

Every one of your pupils should have a garden this year, if only a small one. It will improve their health, apply their surplus energy in a sensible occupation which is not too strenuous for the more frail ones and yet challenge the ambitions of the most sturdy.

Thousands of parents and teachers have thanked us for making it possible for their children to get a knowledge of gardening. Children naturally like to play in the soil. There is evidence of this in 'mud pies'. Gardening, even on a small scale in a corner of the yard at home, gives all the fun of 'mud pies' and much more.

Our seeds, because of their guaranteed quality, at one cent per packet, have made gardening possible where higher priced seeds would be a barrier. The best school garden experts in the United States praise our seeds and they approve our plan of distribution which calls for each pupil buying his own seeds. They like the fact that we do not permit the children to sell our seeds from house to house for a premium or cash reward.

Permit every one of your pupils who is interested to have one of our catalogs like the enclosed sample, printed in black ink. Tell the pupils to take a copy home so the parents can help select the varieties to be planted. Then, when they have made up their orders on the order blank which is bound in the catalog, but which can be removed easily, have them bring the orders and money to pay for them to you at school.

You can send all the orders from your school to us at one time. We will fill each order separately, returning the original orders with the seeds. All orders will be packed together and shipped to you. By this plan you do not have to handle the packets of seed—just hand out the large order envelopes to the children.

Will you fill in and return the enclosed post card to us today?

Yours for a more beautiful community,

### New Everbearing Raspberry

1581 **St. Regis** A splendid new red raspberry that is well worthy a place in every garden. It produces an abundant main crop in June like the common variety. Then remove the old canes and the young ones will produce in continually increasing quantities from July to October. 3 for 25c, 12 for 75c, 100 for \$6.00.

### The Best Red Raspberry

1580 **Early King** A week to 10 days earlier than the old "Standby" Cuthbert. The canes are strong, berries very large, bright red, firm and easily picked. For market it is a money maker as you get the early market ahead of other varieties. Equally desirable for home use. 6 for 45c, 12 for 85c, 50 for \$2.75.

Cumberland Raspberry

### Best Black Raspberry

1585 **Cumberland** "The Business Black Cap." The biggest black cap raspberry grown. Very hardy everywhere. The heaviest producer and best all-round variety for home or market. 6 for 45c, 12 for 85c, 100 for \$5.00.

### The Best Blackberry

1588 **Eldorado** This most popular hardy Blackberry is known everywhere and is more largely grown than any other variety because of its extreme hardiness and dependability. Where other varieties often fall by winter killing, Eldorado can always be depended on for an abundant crop of nice large berries. 6 for 50c, 12 for 90c, 100 for \$6.00.

Asparagus

### Asparagus Roots

1595 **New Pedigree Washington** Recommended by the U. S. Government at Washington. This strain was obtained by continual selection of the best plants of the variety Martha Washington, and produces large, straight, dark green shoots of excellent quality. It is nearer being rust-proof than any other variety. We have 100,000 roots of this fine new variety. Strong roots, doz. 50c, 50 for \$1.50, 100 for \$2.25.

Eldorado Blackberry

### Rhubarb Roots

1597 **Early Victoria** A few clumps of rhubarb in a corner of the garden will furnish a continual supply of material for pies and sauces during the early summer months. Strong one-year roots, 3 for 25c, 12 for 85c.
